COURSE NAME: Sociology of Education

Objectives:

This course plan is designed to conceptualize the study of education within the discipline of sociology. It begins with a discussion of the major theoretical perspectives and the contribution of sociologists which have left their mark in the study of education and society. It assumes a basic knowledge of sociological concepts and theories. It is divided into two parts. The first part acquaints the students with major concepts, theoretical approaches and development of sociology of education. It also focuses on some important aspects which are salient in any discussion of the interface between education and society. The second part shifts to the Indian situation. Beginning with a historical perspective, it moves to the contemporary situation. It carries forward the discussion of the some dimensions/themes from the first part and embeds them in the Indian context.

CO1	1. Students will know the contemporary situation of education in India.
CO2	1. Student will know the contemporary situation of education in India.
CO3	Student will know about the issues of Education in the Indian context
